To the Board of Directors of
Just Energy Group Inc.

We have undertaken a reasonable assurance engagement of the accompanying schedule for the retirement of Renewable Energy Certificates ("REC"), Carbon Offsets and Water Restoration Certificates ("WRC") relating to the JustGreen, JustClean Ontario, and Hudson Energy programs in North America in which Just Energy Group Inc. (the "Company") operated as well as the terrapass program globally for the period January 1, 2018 to December 31, 2018 ("the subject matter information").

Management's responsibility

Management is responsible for the preparation of the subject matter information in accordance with the applicable criteria. As a basis for this reasonable assurance engagement, management has determined the following applicable criteria to measure the subject matter information:

1. A Renewable Energy Certificate ("REC"), Carbon Offset or Water Restoration Certificate ("WRC") is considered retired when it is no longer available for sale to customers.
2. The EcoLogo® renewable low-impact electricity product standard was applied in retiring the Renewable Energy Certificates in the province of Quebec.

Management is also responsible for such internal control as management determines necessary to enable the Company to prepare the subject matter information that is free from misstatement whether due to fraud or error.

Our responsibility

Our responsibility is to express a reasonable assurance conclusion on the subject matter information based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements 3000, *Attestation engagements other than audits or reviews of historical financial information*. This standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the subject matter information is free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an engagement conducted in accordance with this standard will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of our report. A reasonable assurance attestation engagement involves performing procedures to obtain evidence about the subject matter information. The

nature, timing and extent of procedures selected depends on our professional judgment, including an assessment of the risks of material misstatement, whether due to fraud or error, and involves obtaining evidence about the preparation of the subject matter information in accordance with the applicable criteria.

We believe the evidence we obtained is sufficient and appropriate to provide a basis for our opinion.

Our independence and quality control

We have complied with the relevant rules of professional conduct of code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies Canadian Standard on Quality Control 1, *Quality control for firms that perform audits and reviews of financial statements and other assurance engagements* and, accordingly, maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Opinion

In our opinion, the retirement of Renewable Energy Certificates ("REC"), Carbon Offsets and Water Restoration Certificates ("WRC") related to the Just Green, Just Clean Ontario, Hudson Energy and terrapass programs for the period January 1, 2018 to December 31, 2018, is properly prepared, in all material respects, in accordance with the applicable criteria.

Specific purpose of applicable criteria

The subject matter information has been prepared in accordance with the applicable criteria referred to above to assist management meet their reporting obligations per the terms of the JustGreen, JustClean Ontario, Hudson Energy and terrapass programs. As a result, the subject matter information may not be suitable for another purpose.

Other Matters

This report is intended solely for use by the Management of Just Energy Group Inc. and its customers.

In order for this auditor's report to have relevance to the users, it should be read in conjunction with our auditor's report on the schedule of Renewable Energy Certificates, Carbon Offsets and Water Restoration Certificates Purchases and Sales dated January 25, 2021.
